

Classic Model. Modern Performance!

Our Automatic Cutting Machines are powered by Japanese technology and developed with Taiwanese engineering. They are specifically designed for thin fabrics and bulk cutting, and will bring improved productivity to your shop floor.

Advantages:

- Cutting accuracy 97%
- Move and cut
- Speed up to 4500 RPM

User interface:

- User-friendly
- Multilingual interface

Investment cost:

- Reduce fabric waste by 2%
- Achieve 96% efficiency
- Capable of integration with other devices

TAC-7805

Automatic Cutting TAC-7805/7808

Model	TAC-7805	TAC-7808
Cutting Area WxL (mm)	2000x2000	
Cutting Height (mm)	Max50mm (After compressed)	Max80mm (After compressed)
Cutting Speed (m/min)	Max 35m/min (Mechanical 60m/min)	
Cutting Method	Reciprocating	
Power	3P/380V 50HZ/60HZ	
Consumption	Max 38KVA(25KW)	
Air Supply (Mpa)	0.5MPa above	
Dimensions LxWxH (mm)	5020x3130x1570 (Including Outlet Chimney 2500mm)
